Summary

Systems engineer with over 4 years of experience in software development. Expert in various modern development platforms, tools, and methodologies. Competent in self-managing independent projects and possessing strong skills for effective collaboration within productive teams.

Professional Experience

NTT Data | Software Engineer

2024 - Present

- Creation and modification of tables, columns, and structures in SQL Server (Azure).
- Development, updating, and maintenance of REST endpoints (parameters, validations, and payload extensions).
- Implementation of reactive programming with RxJava and Spring.
- Integration with external APIs and authentication management using JWT.
- Execution of unit and integration tests using JUnit and Mockito.
- Use of GitHub, Jenkins, and deployments in managed containers with AKS (Kubernetes).
- Active participation in Scrum ceremonies (daily stand-up, planning, review, retrospective).
- Requirements management and task tracking in Jira.
- Collection and documentation of evidence for security enablers.

Fractal Consulting | Full-Stack Developer

2024

- Creation of REST APIs using Spring Boot and Java.
- Mapping entities to database tables using JPA (Hibernate).
- Development of interfaces using Angular, Tailwind and Angular Material.
- Implementation of Spring Security.
- Use of JWT for user authentication and authorization.
- Creation and use of stored procedures for data management.
- Project version management and continuous collaboration with the work team.

Ghiferdi | Full-Stack Developer

2022 -2023

- Web development with PHP, CodeIgniter and MySQL.
- Design and layout of the interface using Bootstrap 5.
- Creation of dynamic tables and graphs using JQuery and ChartJS.

- Implementation of authentication and restriction of user roles.
- Generation of dynamic reports in different formats (PDF, CSV).

Stefanini Solutions | Programmer Analyst

2021-2022

- Repository management using Git to ensure an organized workflow.
- Replication of internal and external APIs operation.
- Analysis and execution of SQL queries.
- Creation and management of components and libraries made with Java.
- Project management using BitBucket and Git.
- Performing API testing using Postman.

Education

Bachelor's Degree in Systems Engineering

2023

César Vallejo University

Languages

Spanish - Native

English - Intermediate / Advanced

[EF SET Certificate C2 Proficient English Level](#)

Hard Skills

- | | | |
|-------------------|---------------|------------------------|
| • Java | • Angular | • Microsoft SQL Server |
| • Spring Boot | • Astro | • Oracle Database |
| • Spring Security | • PHP | • PostgreSQL |
| • Spring WebFlux | • CodeIgniter | |
| • RxJava | • MySQL | |

Soft Skills

- Problem solving
- Communication
- Teamwork
- Time management
- Responsibility
